## **Couldn't see the ticking time bomb**

now i'm staying up way too long  
thinking about where it all went wrong  
in my head again

## **Same room**

but so far  
i've said nothing to you

cause i see  
that you are  
just tryna carry through

one day we'll see  
where we're meant to be

right now i'm noticing  
you were everything to me
