

Music 238 Take-Home Quiz 1

In a paragraph or two, using your own words, explain the difference between a *refrain* and a *chorus*. You might also describe how they are similar. Feel free to make comparisons to non-musical examples if that can add depth to your answer. Also feel free to look at definitions found on the web syllabus, or from elsewhere to inform your answer.

Next, provide links to two song examples: one that features a refrain; the other that features a chorus. For each example, indicate the time stamp (minute:seconds) where the refrain and/or chorus is. For example: "the chorus starts at 1:25".

Please do NOT use the songs that have been referred to in class, or the song that you previously analyzed. Find something new – there's plenty out there.

Submit your answer by email.
