

Music 238 Take-Home Quiz 3

Answer these three questions about your 1) recording process, and 2-3) creative process. Each answer can be just one - three sentences (nothing too long).

Your answers will be compiled to make a helpful list for your classmates and potentially-future *songwriting* students. Please make your answers clear and concise; put yourself in the shoes of someone else reading your answers and ask yourself "are my answers easy to understand, and will they be helpful to someone else involved in this process?"

1. What recording software and/or equipment do you use, and do you have any advice about utilizing it most effectively (like are there typical problems/solutions you've experienced)?
2. What creative process do you follow to get your ideas documented?
3. What do you do when you hit a block in the process (something like *writer's block*), and/or what do you do for inspiration?

Please copy the questions above and paste them into an email (with your answers) with "MUS 238 Quiz 3" in the subject header.
